Охладител за процесор Arctic Freezer 7 X

Модел : ARCTIC-FAN-ACFRE00077A

Охладител за процесор Arctic Freezer 7 X

A worthy Freezer 7 Pro Successor: Better Price - Better Performance
The ARCTIC Freezer 7 X is a compact CPU cooler with one 92 mm fan. It is multi-compatible with common Intel® and AMD® sockets. It benefits from an improved heatsink design and a reworked heat pipe layout. In conjunction with the fan, which is optimised for high static pressure, ARCTIC has been able to significantly improve the cooling performance of Freezer 7 X.

- EXCELLENT COOLING PERFORMANCE: A 92 mm PWM fan, 44 fins, 2 double-sided 6 mm direct touch copper heatpipes with pre-applied MX-2 high performance thermal paste provide excellent heat dissipation
- EFFICIENT AND WHISPER QUIET: At maximum speed the fan of the Freezer 7 X consumes only 0.07 A at a volume of whisper quiet 0.3 Sone
- OPTIMAL COMPATIBILITY: The Freezer 7 X can be mounted on most current desktop processors. AMD socket: AM4, AM3(+), FM1/2(+)/ Intel Socket: 1200, 115x, 775
- EASY INSTALLATION: By using the mounting frame a simple installation is possible even without removing the mainboard
- INCLUDING PRE-APPLIED THERMAL COMPOUND: Freezer 7 X comes with ARCTIC MX-2 thermal compound already applied, so the CPU cooler can be put into operation immediately
