Cooler Master GPU holder V2 Брекет и кабел за вертикален монтаж на видео карта

Модел : CM-MCA-U000R-KFVK01

Cooler Master GPU holder V2 Брекет и кабел за вертикален монтаж на видео карта

Cooler Master GPU holder V2 Брекет и кабел за вертикален монтаж на видео карта

The Cooler Master Universal Graphics Card Holder Kit Version 2 comes redesigned for maximum compatibility and easy installation. The revolutionary accessory returns with a new design that allows the bracket to move back and forth to accommodate all standard ATX chassis and various sizes of graphics cards. A high-quality version 2 riser cable is included to complete the kit. Installation is painless: Connect the riser cable to the motherboard, install the GPU holder to the chassis, then install the GPU to the holder itself and you're set. Showcase your graphics card.

- Showcase your graphics card –The vertical graphics card holder Kit allows vertical installation of a GPU to better show off the visual design of the GPU and its cooler.
- Compatible with all standard ATX chassis –The newly revised vertical graphics card holder kit fits all standard ATX chassis with at least 7 available PCI slots
- Modular, instantly adjustable design –The position of the GPU can move back and forth to allow cables to pass through chassis with either closed or open PCI slots.
- Durable, high quality materials –Thick SGCC steel prevents the largest and heaviest GPUs from bending the GPU holder
- Cooler Master Riser Cable Version 2 included –A high quality Cooler Master version 2 riser cable completes the vertical GPU holder package
