Геймърска механична клавиатура Keychron K2

Hot-Swappable Compact Gateron Blue Switch White LED Gateron Blue Switch ABS

K2 is a super tactile wireless or wired keyboard giving you all the keys and function you need while keeping it compact, with the largest battery seen in a mechanical keyboard. Connects with up to 3 devices via Bluetooth and switch among them easily. With high reliable and broad compatibility Broadcom Bluetooth 5.1 chipset, the K2 is best to fit home, office and light gaming use while connecting with your smartphone, laptop and iPad. It also has wired mode with USB Type-C connection. The K2 is designed to fit your dedicated typing experience. No matter what you like, linear, clicky or a little in between, we've got you covered with three Gateron switches options (Blue, Brown, Red). With a lifespan of 50 million keystroke we want to make sure that you experience the same feedback for every keystroke. Compatible with all operating systems from Mac to Android to Windows. K2 is one of the few mechanical keyboard featuring Mac layout media keys. It allows you to use all the same media keys as conventional macOS. Every K2 keyboard comes with 3 specific keycaps for Mac and Windows, respectively. K2's 84 key design by retaining all the essential function keys like Page Up/Down, Home, End, and Screen capture (cmd+shift+4) which are important for your productivity. With N-key rollover (NKRO on wired mode only) you can register as many keys as you can press at once without missing out characters. The K2 can last up to 240 hours typing (backlight off) with a 4000 mAh big battery.
