Настолен микрофон HyperX QuadCast S White, USB, 3.5 mm

Настолен микрофон HyperX QuadCast S White

The HyperX QuadCast S is a USB condenser microphone that both sounds great and looks great. The supremely stunning RGB lighting and dynamic effects will add style and flair to any stream or setup, and is customizable via HyperX NGENUITY software. The QuadCast S is an all-inclusive mic, featuring an anti-vibration shock mount to help quiet the rumbles of daily life and a built-in pop filter to muffle plosive sounds. Instantly know your mic status with the LED indicator, and simply tap-to-mute to avoid awkward broadcasting accidents. With four selectable polar patterns, this mic's prepared for nearly any recording situation and also features a gain control dial to quickly regulate input sensitivity. The included mount adapter fits 3/8" and 5/8" thread sizes, compatible with most stands. QuadCast S is certified by Discord and TeamSpeak so you can ensure that your microphone is broadcasting loud and clear for all your followers and listeners, and you can also monitor your mic in real time using the convenient headphone jack on the back of the mic. It's multi-platform compatible, so you can deliver quality sound output whether you're connecting to a PC, PS4, or Mac.
