Jonsbo VC-1 GPU bracket - black

Модел : JONSBO-GAZU-641

Jonsbo VC-1 GPU bracket - black

Jonsbo VC-1 GPU bracket - black

This versatile bracket supports up to two extra-long graphics cards . The Jonsbo VC-01 graphics card holder can be placed anywhere in a housing. It consists of a stable base with a magnetic and non-slip underside. Up to two rods, each 125 millimeters long, can be screwed one on top of the other in the base. In turn, the actual brackets with a rubber coating are placed at any height and screwed tight. Two of them are included in the set. The Jonsbo VC-01 graphics card holder is made of an aluminum-magnesium alloy and then sandblasted in black. Thanks to the lightweight material, the total weight is just 150 grams. Nevertheless, the Jonsbo VC-01 is robust enough to hold even the most massive graphics cards with water cooling in a horizontal position and to avoid long-term damage to pixel cars that can occur if they bend too much.

- Freely placeable graphics card holder
 - supports up to two graphics types
 - made of an aluminum-magnesium alloy
 - magnetic stand
 - Height of 145 or 270 mm
- Гаранция: 24

Цена : 34.99 лв. с ДДС
